

At Hope Kids Therapy Center we are all about "hope." We know there is hope for all children to reach their full potential. Some children benefit from the extra help we can provide through occupational therapy and speech therapy. Therapy challenges a child's abilities, encourages a child's progress, and celebrates a child's achievements.

Most of all, our therapists enjoy children and know how to make therapy fun!

Speech Therapy and Occupational Therapy

Our therapy programs treat children with a wide range of diagnoses, including, but not limited to:

- Autism Spectrum Disorders
- Developmental Delays
- Cerebral Palsy
- Spina Bifida
- Apraxia/Dyspraxia
- Sensory Integration/Processing Disorder
- Downs Syndrome
- Hearing Impairments
- Cleft Palate
- Prematurity
- Traumatic Brain Injury

“Packed inside a little word like *hope* are some very big things.

Things like anticipation, expectation, and confidence.

Hope sends out a bright sunbeam into our future and reflects back into our present circumstances.

Hope says to us, “Move on, keep on—the best is yet to be!”

—Roy Lesser
